## SUMMARY

---

I am an experienced IT professional transitioning into a web development career. I have an undergraduate education in Business and Computer Science and over four years professional working experience in the IT Risk and Business Analysis fields. In May 2013, I completed a certificate of Web Development at Boston University Center for Digital Imaging Arts. I have a solid understanding of front and back end web technologies and love problem solving using JavaScript and PHP.

## WEB DEVELOPMENT EXPERIENCE

---

### Boston University Center for Digital Imaging Arts (CDIA)

In May 2013, completed an 8 month full-time program focusing on client-side programming with HTML, CSS, and server-side programming using PHP scripting and SQL databases in deploying rich media sites using various open source content management toolsets.

### Freelance

*Great Escapes Patio and Stonework Inc. ([www.greatescapespatio.com](http://www.greatescapespatio.com))*

Built a business website using HTML5, CSS3, JavaScript and PHP/MySQL. Notable features included a custom content management system built from scratch and a database driven portfolio page.

## PREVIOUS EXPERIENCE

---

### Small-e Solutions, Inc., Grapevine, TX

2012 – Business Analysis/Project Management

*On-site point of contact for client in Auckland, New Zealand. Responsible for providing second level support for proprietary iPad application used by the Sales organization. Tested bug fixes and changes to ASP.NET web and iPad applications. Attended client meetings and managed project issues from identification to resolution. Helped manage local and offshore development team. Assisted with business development and sales.*

Clients: Yellow Pages New Zealand

### Deloitte & Touche USA, LLP, Boston, MA

2008-2012 – Enterprise Risk Consulting

*Responsible for conducting audits, project management, report creation, management of staff related to IT Audit projects.*
